

## HomePad® WLAN 12

Enjoy your freedom without any cables you. The software for the HomePad allows mobility in multifunctional diversity. When integrated into a wireless tablet PC, it can access the visiomatic® Home System via WLAN from anywhere in the building without a cable connection.

The HomePad makes it possible to control, monitor and visualize all of the devices and media in a building. All of the services, information and functions from the sectors: Home automation, Entertainment and Infotainment are bundled, centralized and put in the palm of your hand.

High-end tablet PC HomePad WLAN12 with an ultra slim 12,1 inches touch screen, WLAN and Bluetooth connectivity provide high speed and power efficiency for everyone who needs a comfortable and mobile control display for his visiomatic® Home System.
