

visiPad TT15 Active

visiPad 15 active is a high-resolution, stylish touch panel, featuring 15 inch touch screen for easy on-screen interactivity with an inbuilt processor.

It has a capacitive type of the touch screen, inbuilt microphone and loudspeakers. An integrated colour video camera can be provided on demand.

visiPad is a durable, scratch-resistant screen with a high clarity.

The visiPad can be placed anywhere you wish: It can be mounted in the wall or can be provided with a mounting stand, which has a foam rubber bottom, so you can fix it on any part of your desktop.

visiPad TT15 Active
